8 - INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

The Basic Structure of the Turkish National Education System consists of four main stages at pre-school education, primary education, secondary education and higher education. Pre-school education consists of non-compulsory programmes whereas primary education is a compulsory 8 year programme for all children beginning from the age of 6. The secondary education system includes "General High Schools" and "Vocational and Technical High Schools". Higher Education is defined as all post-secondary programmes with a duration of at least two years. The system consists of universities (state and non-profit, foundation) and other types of higher education institutions (police and military academies and foundation vocational schools). Each university consists of faculties and schools offering First Cycle (Bachelor's level) programmes (240 ECTS), two year vocational higher schools offering Short Cycle (Associate's level) programmes (120 ECTS) of a study vocational nature and also graduate schools administering graduate programmes.

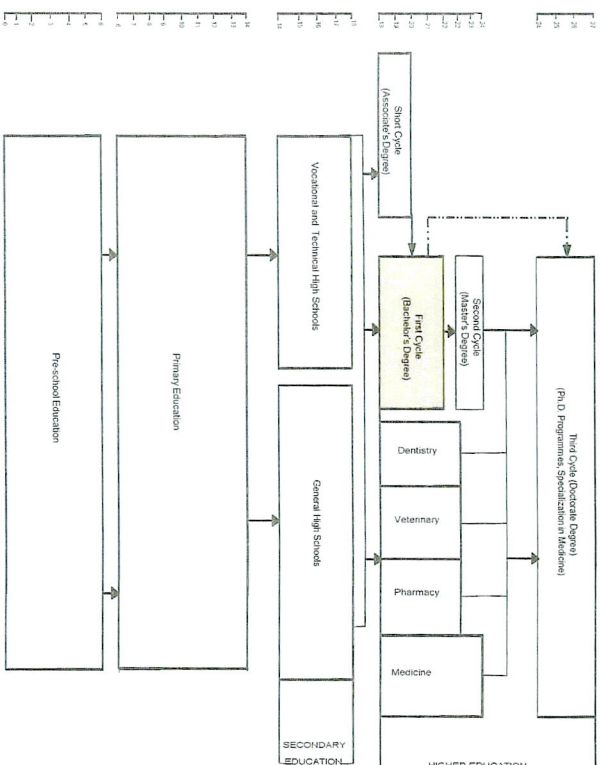

The Higher Education Law No. 2547 is the main law, which governs the higher education in Turkey. All universities (both state and non-profit foundation) are subject to the same law and regulations/rules. All state and non-profit foundation universities are founded by Law. The Higher Education System is regulated by the Council of Higher Education (Yüksek Öğretim Kurulu-YÖK) established in 1981. The Council regulates the activities of higher education institutions with respect to research, governing, planning and organization.

Admission to higher education is based on a nation-wide Student Selection Examination (ÖSS). The examination is held once a year and is administered by the Student Selection and Placement Center (ÖSYM). Candidates gain access to institutions of higher education based on their composite scores consisting of the scores on the selection examination and their high school grade point averages.

Graduate level of study consists of the Second Cycle (Master's Degree) and the Third Cycle (PhD/Doctorate Degree) programmes. There are two types of Master's programmes: with or without a thesis. The Master's programmes with a thesis have 120 ECTS and consist of a minimum of seven courses, with a minimum of 21 national credits, one seminar course, and a thesis. The seminar course and thesis are non-credit and graded on a pass/fail basis. The duration of the Master's programmes with a thesis is four semesters. Non-thesis Master's programmes have 90 ECTS and consist of a minimum of 10 courses with a minimum of 30 national credits and a non-credit semester project. The semester project is graded on a pass/fail basis. Duration of the non-thesis Master's programmes is three semesters. PhD programmes have 240 ECTS and duration of eight semesters which consists of completion of a minimum of seven courses, with a minimum of 21 national credits, passing a qualifying examination, preparing and defending a doctoral dissertation. Specialization in Medicine accepted as equivalent to third cycle programmes are carried out within the faculties of medicine, university hospitals and the training hospitals owned by the Ministry of Health.

Since 2003, a change in the 1996 Regulations on Graduate Education allows Bachelor's degree holders to PhD programmes if their performance at the Bachelor's degree level is exceptionally high and their application is approved. For these students, the theoretical part of the PhD programmes consists of a minimum of 14 courses, with a minimum of 42 national credits.

4.4 Grading scheme, grade distribution guidance:

The official university grading system uses letter grades with pluses and minuses. Passing grades range from A to D; F is failing. The quality-point equivalents of the grades are:

BU Grades	Scores	Credits	ECTS Grades	Definitions	Calculation of Grades
A	90-100	4.00	A	Excellent	First 10%
A-	87-89	3.67			
B+	84-86	3.33			
B	80-83	3.00	B	Very Good	Next 25%
B-	77-79	2.67			
C+	74-76	2.33	C	Good	Next 30%
C	70-73	2.00			
C-	67-69	1.67	D	Satisfactory	Next 25%
D+	64-66	1.33	E	Sufficient	Next 10%
D	60-63	1.00	FX		
F	59 - 0	0.00	F	Fail	

Other grades used are:

I (Incomplete), S (Satisfactory), EX (Exempt), W (Withdrawn), NA (No Attendance). These grades do not have quality-point equivalents.

I: given to the students who have failed to complete the required assignments for a course due to illness or for some other valid reason. Proof of illness or other reason for non-completion must be submitted to the Department Chair within three days after the date of the final exam. A student receiving an incomplete grade for any required course will take a make-up test within 15 days after the exam in order to obtain a grade. Otherwise, a grade of I automatically becomes a grade of F.

S: given at the end of the semester for the courses with 0 credits.

EX: reflects approved transferred courses from other universities or other departments in the university.

W: is given when a student withdraws from a course with the approval of the student's advisor. A course which is withdrawn is automatically given to the student in the first semester in which the course is offered.

NA: is given to students who have failed to regularly attend courses or who have not fulfilled the requirements of the course. NA is processed as an F in computing grades.

Grade Point Average (GPA) and Cumulative Grade Point Average (CGPA)

A student's academic performance is determined at the end of each semester by computing an average of the grades he/she has received during that semester. Students who obtain a GPA of 3.00-3.49 at the end of a semester are considered Honor Students and those who obtain a GPA of 3.50-4.00 at the end of a semester are considered High Honour Students.
